

Communication and transparency

Communication, and especially transparency, were lacking under the previous administration. For example, there were only two information magazines per year on the progress of files, no recordings of the monthly council sessions, and above all, no access to council sessions (Zoom & videos) during the pandemic, under the pretext that the computer system / technology was not available.

I am proud to have **transformed our communication processes** and citizen dialogue, which led me to implement **all these initiatives** that bring us closer to you and provides greater exchange:

- All regular council sessions have been available online since our election
- We publish and circulate the elected officials' newsletter via email monthly
- We organized several citizen meetings to consult and inform the citizen, notably:
 - Infrastructure East sector
 - 6 meetings in June 2022, 3 in November 2022, 4 in June 2025
 - Monthly update of the project during council sessions
 - Consultative meeting regarding the Coeur villageois / Urban Boulevard
 - Toponymy evening to involve citizens in the selection of names for the new streets of the School District
 - Information session regarding the Halte des boisés
 - Citizen meeting on the DC2 real estate project
- Launch of the monthly newsletter La Vague to better inform citizens
- I am present to meet and exchange with citizens...
 - During the activities of MADA
 - During the family activities
 - During the Easter egg hunt, Family celebration, Fishing on the dock, Children's soccer, Festi Léry, Bike rally, Pumpkin decorating for Halloween, Children's Christmas, and 8 evenings-O-Quai in July and August 2025
 - During the Mayor's Saturdays or at any other time: **I am available for you!**
